

Our Services

Resource Guide to Providence Senior and Community Services

Providence Senior and Community Services (PSCS), part of the Providence Health & Services health care system, is committed to improving the quality of life for those living in our communities with chronic and/or life-limiting conditions. Working with others in a spirit of loving service, we strive to meet the growing health needs of people as they journey through life.

PSCS offers a continuum of health care services provided in the home or in a variety of facility-based settings, and is committed to offering access and choice through innovative, customer-centered options. Our mission is to serve the frailest among our neighbors in Western Washington, which we've been doing for nearly 150 years. Each day, nearly 12,000 people in our communities are served by the more than 2,000 people of Providence working in the ministries of Providence Senior and Community Services.
